Cloud Communities

Our professional communities provide a great opportunity

- to **talk**
- to **share experiences** with each other
- to explore **new features & use cases**
- to **meet with other Clouders and** the representatives of the largest **hyperscalers**

Online or hybrid meetups every month

For everyone for free

3 Communities   3 Platforms   1 700+ members

HUNAUG – Hungarian Azure User Group

GDG Cloud Budapest

AWS Budapest CoP

„We love technology and public clouds in general and believe that together we can learn more about this quickly evolving field of IT. We aspire to have a diverse collection of members who can bring various viewpoints."

Join us via meetup.com

Hungarian Azure User Group

Hungarian Azure User Group is an open community dedicated to the rapidly growing public cloud platforms of Microsoft (Azure, Office 365) that we use and customize as a part of our work.

Our members: developers, architects, engineers, end users

GDG Cloud Budapest

GDG Cloud Budapest is an open community focusing on the quickly evolving cloud platform of Google: GCP. Our general goal is to increase our skills regarding cloud computing and GCP.

Our members: developers, architects, engineers, end users

AWS Budapest CoP

AWS Budapest CoP (Community of Practice) is an open community focusing on the broadly adopted public cloud platform of Amazon: AWS. Our group is more focused on technical aspects across AWS services.

Our members: developers, architects, engineers, end users
