CODER GAMES
for women

by Deutsche Telekom IT & Telecommunications
March 31 - April 4, 2025
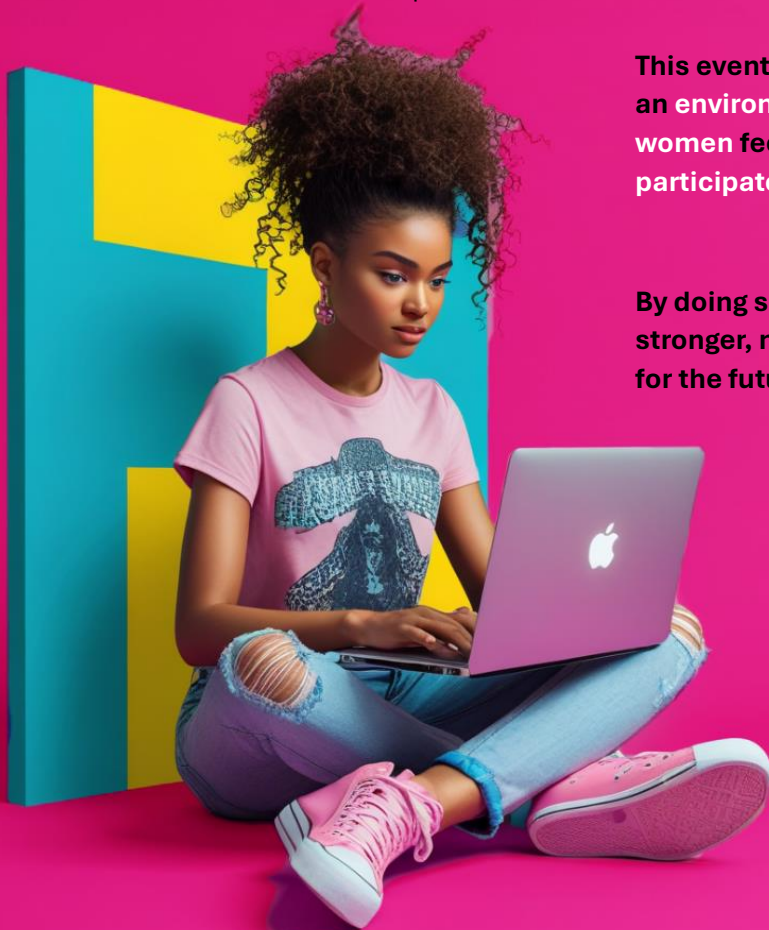

What is CoderGames?

CoderGames is an online individual coding competition where you solve one task each day, from Monday to Friday, gain points for correct answers and speed, and win cool prizes!

The tasks were created by developers from Deutsche Telekom around Europe, our contributing colleagues come from Slovakia, Germany, Hungary, Spain and Greece.

Why CoderGames for Women?

For the first time, we are excited to introduce the Coder Games for Women, a competition designed exclusively for our female employees and students. As a company committed to diversity and inclusion, we believe it's important to create opportunities that support and encourage women in the tech industry. Women are still underrepresented in IT, and this initiative aims to:

✔ Provide a supportive space where women can develop and showcase their skills
✔ Encourage women to pursue careers in technology
✔ Foster a diverse and inclusive workplace

This event is about creating an environment where women feel confident to participate, learn, and grow.

By doing so, we hope to build stronger, more diverse teams for the future.

How does it work?

The task is to solve **five tasks** in **five days** and win! Every day, from Monday till Friday, a new task is released on this page at 18:00 CET. Solve the task and submit your answer as fast as possible to get extra points. You can use any programming language you want. You can also use GitHub Copilot or any other AI tool for solving the tasks.

The tasks get more difficult each day, but more points are awarded. Every day. first five quickest get awarded extra points. Each task can significantly change the score and the order of competitors.

What can you win?

If you are a Deutsche Telekom employee:

1st - 5th prize - DT branded package, Lego Botanicals mini + Airtag
6th - 10th prize - DT branded package + Airtag
