Date: Budapest, April 24, 2025.

1/2025. (04.24.) dean's instruction

On the extension of the deadline for tasks in the last week of the academic period

According to point I.3 of the regulations related to the closure of the 2024/2025 academic year II. (spring) semester, as well as the preparation and initiation of the 2025/2026 academic year I. (autumn) semester:

„The lecturer is required to evaluate all students in each of their courses by May 28, 2025, as follows:

- ***In case of signature requirement: "Teacher's signature", "Rejected" or "Blocked (Letiltva)";***
- ***In case of mid-term grade requirement: with a Midterm-mark (1–5) or "Blocked (Letiltva)" entry."***

In compliance with the deadline specified in the above point of the regulations, based on the current dean's decision, make-up assessments due in the last week of the academic period can also be organized as an extension of the 14th week during the first three working days of the exam period, between May 26-28, 2025.

The purpose of the above provision is to extend the opportunities for students to meet their academic requirements, particularly to compensate for the educational breaks during the semester, while ensuring the smooth conduct of educational administrative processes.

I respectfully request the Colleagues to familiarize themselves with, comply with, and enforce the instructions contained in this directive!

This instruction comes into effect today and is valid until May 28, 2025.

Dr. György Eigner s.k.
dean
